

Virtual Web Page Option

Kits for Kidz™ offers corporations and philanthropic organizations the opportunity to promote and raise funds for their individual back-to-school supply drive on the KFK website (www.kitsforkidz.org).

With this option, Kits for Kidz™ creates a unique, individual web page for each organization where they can offer school supply kits and backpacks to their target audience with each purchase being directed to their specific school supply drive. The page created can include company logos, text describing the program, images to help visualize the progress to your goal and weekly reports to keep you updated of the status.

Here is a quick outline of how the program works:

- Organization fills out this form with all necessary info and submits to KFK for page development (allow two weeks for page to be set-up).
- Organization directs their target audience (customers, employees, sponsors, etc.) to the web page to make a purchase.
- KFK Web Site collects orders over a predetermined period of time (web site does credit card verification and collection).
- Orders are totaled up and delivered to organization's choice of delivery location (allow 4 weeks from program end to product delivery date).

This is a perfect solution for an organization that is active in the community but has limited funding. Please fill out the following information and return to KFK via fax 630-739-5075 or e-mail to info@kitsforkidz.org

Organization Name _____ Contact Name _____

Contact Phone _____ Fax# _____ E-Mail _____

Start-End Date of Back-to-School Drive _____
