

# Baby Relief Kit

As many of us have experienced, having a new baby comes with the deepest kind of joy and the most challenging of responsibilities and commitment. When you have the added burden of not being able to provide your baby with even the most basic of bathing and feeding supplies, you can imagine the amount of panic and worry this would create for a new mom/dad.

With this in mind, Kits for Kidz has created a “Baby Relief Kit” that is available year round’ for groups looking to provide a bit of relief for the infants/caregivers in their care. Each kit is packed inside of an attractive, gender neutral diaper bag with shoulder strap. All components are packed neatly inside of the diaper bag and are individually wrapped to ensure they stay clean.

Based on certain minimums, KFK can customize kits styles to your specifications and budget – contact your KFK representative for further information or to request a sample.
