

Child Activity Kit

In the never ending struggle to get disadvantaged children the most basic supplies and clothing, we sometimes forget that these same children need an opportunity to laugh and play every once in a while. The goal our Child Activity Kit is pretty simple — to put a smile on a child’s face.

All activity kits come assembled inside of a heavy-duty, clear plastic box that protects the components and gives the child a permanent storage place for these fun items. These kits are stocked year ‘round for immediate shipment. Cases have a hinged lid that snaps shut and all cases are clear for easy identification of items inside.

If the above kit style does not fit your needs, Kits for Kidz can customize a style to your specifications based on your requirements. Quotations for alternate kit combinations are available upon request - contact KFK for more information.

Here is what each kit contains:
