

# Hygiene Kits

In addition to basic school supplies, children living in poverty often go without other basic necessities that most of us take for granted. In addition to the daily struggle to find food and a safe place to sleep, these disadvantaged children find it difficult to acquire basic hygiene items such as soap, shampoo and toothpaste.

In an effort to help organizations and agencies that work with these children, Kits for Kidz provides a low cost, assembled hygiene kit for children. Each kit comes completely assembled inside of a water-proof nylon toiletry case that not only makes distribution a breeze, but also can be used by the individual as a permanent storage case. In response to demand from our customers, we now offer an Adult Hygiene Kit as well.

Sample kits are available upon request. KFK can customize kit styles to your specifications as well – contact your sales rep for more information.
